

## Beavers

### Introduction:

Your family just moved to the country. It is a beautiful area with forests and streams. While on a hike one day, you discover beavers building a dam across the stream. What will this do to you beautiful area? Several years later your area changes in appearance. There has been little or no rain. It is a drought. What will happen to the beavers?

### Questions:

1. Describe a beaver's lodge or its habitat.
